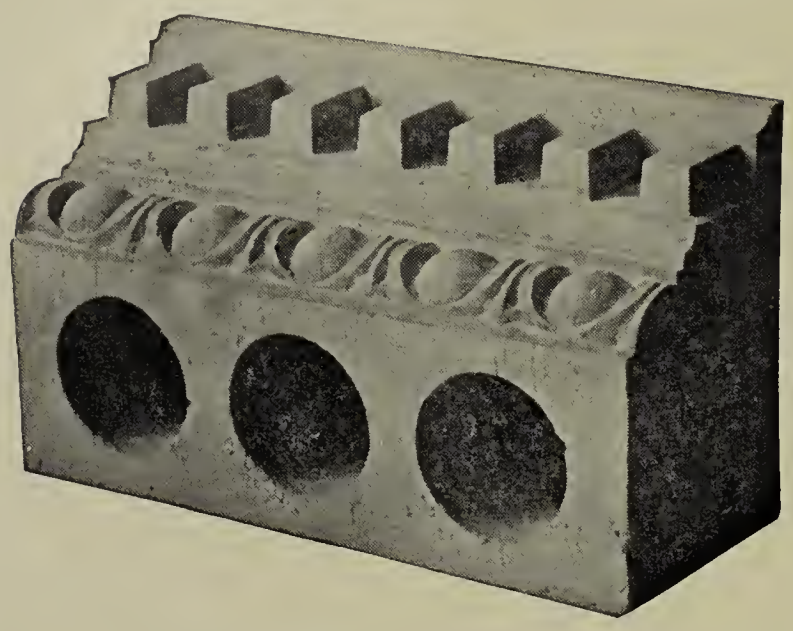
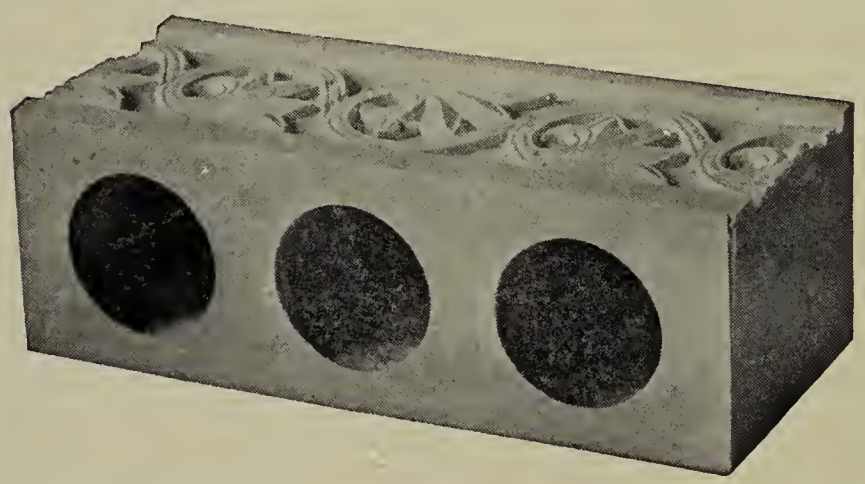
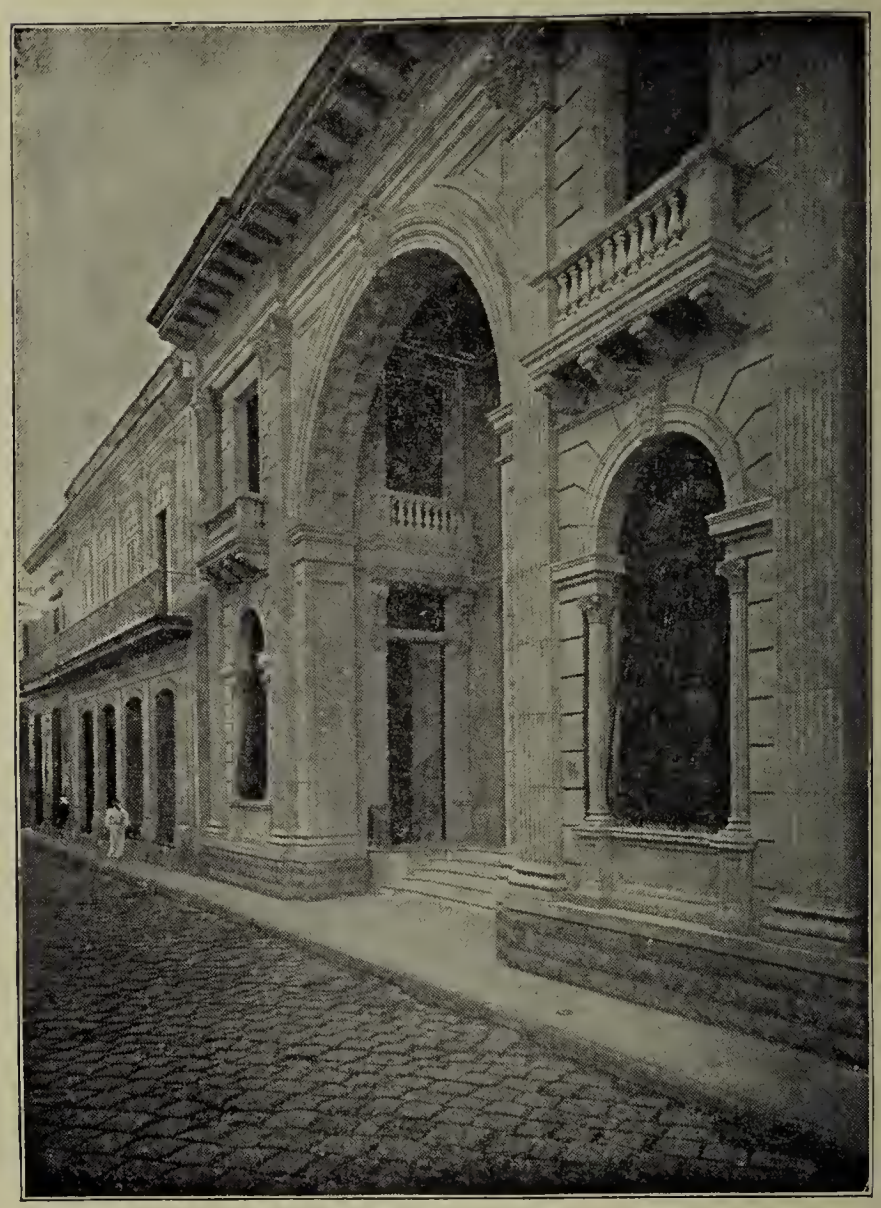
WRITE THE



NON-STAINING CEMENT COMPANY,



156 FIFTH AVENUE, NEW YORK,



FOR PARTICULARS.

LAFARGE CEMENT is the only cement that does not stain Limestone, Granite or Marble

Stevens Cast Stone Co.

ALL our work made under our patents is produced without tamping or pressure. Our hollow blocks for general construction can be put on the market in competition with wood construction. These blocks are 2 ft. 6 by 9 inches, face changeable to any bed desired. Seven of these blocks are made on our machine in one operation. This stone is practically water-proof and equal in quality to best cut stone.

Stone made by the inventor or under his patents can now be seen in over three thousand buildings, Carnegie Libraries, and fine Office and Bank Buildings built of this stone.

Our work can now be seen in more first-class buildings than all the other patent stones on the market.

DAHLSTROM METALLIC DOOR CO.

JAMESTOWN, N. Y.

Metal is Metal

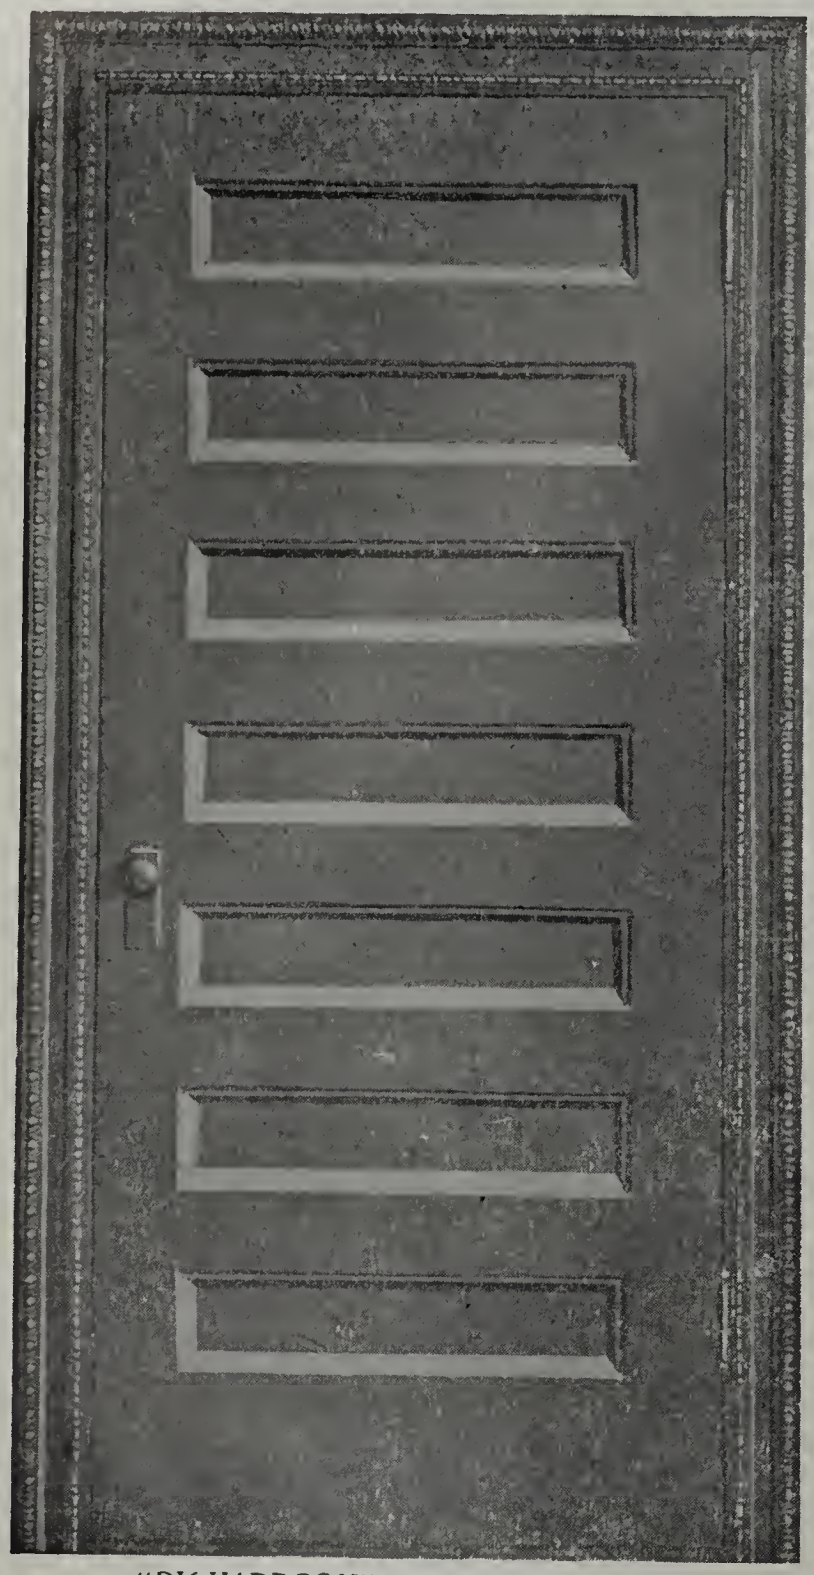
Wood is Wood

WHY USE WOOD WHEN METAL CAN BE MADE JUST AS ATTRACTIVE, MORE EFFECTIVE AND EVERLASTING?

WE MANUFACTURE METALLIC DOORS FOR EVERY CONCEIVABLE PURPOSE, AND OUR CONSTRUCTION ADMITS OF MEETING ARCHITECTS' VIEWS AS TO PANEL EFFECTS, ETC. WE ALSO SUPPLY METAL JAMBS, FRAMES AND CASINGS AND OTHER SHEET-METAL MOULDINGS TO ANY POSSIBLE DESIGN.

THE above is an all steel Twentieth Century Door, light enough to replace high grade wooden doors throughout residences, office buildings, etc., etc., yet stronger and more rigid than any metal door on the market, and it is, of course, absolutely fireproof.

In this asbestos lined door all the objectionable features of the old style doors have been overcome. The open joints, as also the necessity for wood fillings or cores, have been obviated, the metal sound deadened, the weight reduced and the strength increased. It is highly ornamental, and even in vestibules and halls where exposed to the inclemency of the weather it will retain its shape and high grade finish admirably.



DAHLSTROM METALLIC DOOR COMPANY,

149 BROADWAY, NEW YORK, N. Y. JAMESTOWN, N. Y.

The Universal Drafting Machine IS A TIME SAVER

It's almost as direct as free-hand. Simple, too—just a graduated square, with an accurate parallel motion about the board, and a protractor that makes the square universal, so it can be quickly clamped at any angle. Lines are drawn and measured at the same time—right angle, right length. Has spring stops for angles of zero, 30°, 45°, 60° and 90°. ***Built to Last***

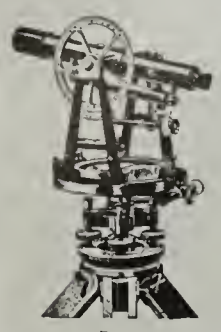
The Supreme Court of Rhode Island Rendered a Verdict for the Employer

in a recent suit brought by a workman for damages on account of injuries sustained through being caught in a machine that he was operating. The Court found for the employer

Because it was shown that his Engines were equipped with the

Monarch Engine-Stop and Speed Limit System

and the Machinery was stopped, according to witness,



in Six or Eight Seconds after the switch was closed,

bringing the Monarch Stop into action. The Monarch System not only protects you from damage suits, but from any and all accidents that might result from a racing engine, by automatically closing the throttle and stopping the engine instantly, when from ANY cause it exceeds a pre-determined limit of safety. It protects you from shut-downs and the expensive repairs that follow the bursting of a flywheel or other serious engine accidents, and, by means of conveniently placed, especially devised push switches, enables any employee to stop the engine from any part of your plant, in case of accident to men or machines. It is also arranged for shutting off ammonia valves, either automatically or by push switches, saving life and possibly thousands of dollars in ammonia, besides damage to product. The Courts recognize the Monarch System as an important factor of safety, and it is only a question of time when the Casualty Companies, who are already interested, will acknowledge its preventive value by a concession in rates to those who install it. We are ready to present our evidence in YOUR Court. Are you ready to sit in judgment upon it? Write for booklet "As Others See Us."
